OMB releases guidance for reports on use of funds

The Office of Management and Budget (OMB) has released detailed information on reporting requirements included in Section 1512 of the ARRA, in addition to clarification of job creation estimates by recipients.

The official document, “Implementing Guidance for Reports on Use of Funds Pursuant to the American Recovery and Reinvestment Act of 2009,” is available on the [OMB Web site](#).

The guidance addresses the chronology and instructions for recipient reporting; provides clarification on reporting to Recovery.gov and FederalReporting.gov; clarifies the definition and obligations of recipients and sub-recipients; provides a common framework for data quality; and further clarifies job creation estimates by recipients.

There are two supplements that model the data flow from recipients to the federal government and provide a complete list of programs subject to Section 1512 reporting.
