# Welcome

Welcome to VACo's 76th Annual Conference! I am pleased and honored that you have joined us for this important event.

For the past three years, the Annual Conference's theme has focused on the economic climate we all face today.

In 2008, our theme was "Counties Poised for Change: The new face of local government." We chose that theme because it became apparent to all of us that 2008 was a transitional year of historic proportions for Virginia's counties. The sobering realities relating to the nation's economy, the availability of energy sources and the projected revenue shortfalls demanded from local officials the most innovative and creative approaches possible as we endeavored to serve our citizens.

In 2009, our theme was "Embracing Change: New partnerships for sustainable communities." Again, poor economic conditions persisted. There was no question that Virginia's counties were experiencing difficult times. But bad times can inspire important reforms. They challenge us to grow stronger and to make innovative changes to the ways we govern and serve our communities. It was the recognition of these emerging opportunities and the collaboration to deal with them that the year's conference theme was chosen.

This brings us to 2010. What has changed? What has stayed the same?

That was the question posed to the VACo Conference Planning Committee. The conclusion was that though the economic climate remained the same, the resolve of Virginia's 95 counties has proven to be our strength. To honor our tenacity and doggedness, we chose this year's theme: "Resilience: Serving counties in trying times."

In planning this year's Conference, we worked diligently to develop a timely program that will focus on key topics, including the state budget, social media, redistricting, transportation, local revenues and energy to name a few.

Our morning speakers list promises to be engaging. Gov. Bob McDonnell, U.S. Sen. Mark Warner, Lt. Gov. Bill Bolling, Speaker of the House William J. Howell and Richmond Times-Dispatch columnist Jeff Schapiro will address the general membership.

Also, as you attend this year's conference, please take time to visit our exhibitors in the Exhibit Hall. There are more than 100 companies and organizations ready to serve the interests of county governments. We're grateful for their time and support. Please thank them for their attendance.

It has been an honor serving as your president. I look forward to thanking each one of you for your service to local government and to VACo.

Phillip A. Bradshaw  
VACo President

# About the development and adoption of VACo's annual legislative program

1. Spring regional meetings: In even number years VACo members are invited to attend regional meetings to identify and discuss key statewide legislative and policy issues.

2. Three Resolutions Committee meetings: The committee oversees the development of the annual Legislative Program. The meetings occur in the spring after the regional meetings, early fall, and during the annual conference in November. The committee receives regular legislative updates, via conference call, during the annual legislative session.

The Resolutions Committee includes the six members of VACo's Executive Committee and the chairs and vice chairs of VACo's eight steering committees. VACo's First Vice President chairs the committee. The eight steering committees are Administration of Government, Community Planning and Development, Education, Environment and Agriculture, Finance, Health and Human Services, Telecommunications and Utilities, and Transportation.

3. Steering Committees meet at least twice: Late summer and November during the annual conference.

The Steering Committees develop their policy sections of the annual Legislative Program.

4. The membership is asked to adopt the new legislative program during the annual business meeting. The meeting occurs on the last day of the annual conference in November.

## Additional information

The President appoints steering committee chairs and vice chairs. VACo members volunteer to serve on steering committees.

In early October, prior to the annual conference, the membership receives a Preliminary Legislative Program. This draft is revised during the annual conference.

Contact Dean Lynch for more information about VACo's legislative policy process: [dlynch@vaco.org](mailto:dlynch@vaco.org)/804-343-2511.

*Why did ....*

- ★ *Prince William County*
- ★ *Prince William Sheriff's Department*
- ★ *Evergreen Volunteer Fire Department*

*...install the award winning Networkfleet system  
offered by Falcon Communications Solutions?*

*Three easy reasons*

### 1. Reduce Fleet Cost

Government organizations are saving hundreds of thousands of dollars a year in lower fuel cost, lower labor cost and, lower maintenance cost.

### 2. Ensure Safe Driving

The system aids in stolen vehicle recovery, provides roadside assistance and helps locate stranded drivers. It also helps to lower accident cost by reducing speeding and unauthorized vehicle use while providing a safer environment for employees.

### 3. Go Green

Vehicles with poor performing emissions systems run less efficiently and pollute our environment. With Networkfleet, you'll be notified immediately if there is a problem so you can take the pro-active steps to ensure the vehicles runs "green."

At Dominion, our dedication to a healthy ecosystem goes well beyond our financial investment in science and technology. It also takes on a personal touch. Like our employee volunteers who donate thousands of hours each year to conservation efforts. They pitch in to refurbish nature trails, build outdoor classrooms, clean up streams and parks, and assist established conservation groups. **Voting Credentials**

Article VI of the VACo bylaws provide that each county is to designate a representative of its board of supervisors to vote at the annual business meeting. Counties should have received voting credential forms and proxy forms by mail in September. If you did not return your form to VACo in the mail, you can submit it to the VACo Credentials Committee at its meeting on Monday at 4:30 p.m. in the Monroe Room. You can also drop it off at the conference registration desk before the Credentials Committee meeting.

**Speakers:** David A. Johnson, Director, Virginia Department of Conservation and Recreation; Russ Baxter, Chesapeake Bay Coordinator, Virginia Department of Environmental Quality; and Jeffrey Corbin, Senior Advisor to the Regional Administrator, U.S. Environmental Protection Agency

Pending federal and state regulatory actions relating to water quality will have major impacts on Virginia's local governments. By a statutorily imposed deadline of Dec. 1, 2011, Virginia's Soil and Water Conservation Board is required to adopt Virginia's new rules affecting locally managed stormwater management programs. Virginia's new stormwater regulations are driven by several federal requirements, principally the U.S. Environmental Protection Agency's "Total Maximum Daily Loading" (TMDL) or "pollution diet" for the Chesapeake Bay. The final Chesapeake Bay TMDL is scheduled for release by Dec. 31, 2010.

**Is Your County Ready for 21st Century Rural Enterprise? • Piedmont**

**Moderator:** The Honorable Anita T. Felts, Chair, VACo Community Development and Planning Steering Committee; and Board of Supervisors, Southampton County

**Speakers:** The Honorable Emmett W. Hanger, Jr., 24th Senate District; Freddie Wydner, Director of Agricultural Development, Pittsylvania County; and Wayne Cilimberg, Director of Planning, Albemarle County

Traditional agriculture has continued to evolve because of economic forces and development pressures. In order to remain in operation and profitable, farmers seek to capture more of the income generated by their products through packaging, processing, marketing, direct sales, agritourism, or other value-added ventures that can take place on the farm. Unfortunately, many county ordinances do not recognize this changing nature of agriculture and often hinder rural enterprise and innovation. A senior member of the Senate Agriculture, Conservation and Natural Resources Committee and the other panelist will discuss how counties can promote value-added agriculture.

**Virginia Budget: State and Local Impacts • Stratford**

**Moderator:** The Honorable J. Michael Hobert, VACo Board of Directors; and Chair, Board of Supervisors, Clarke County

Fifty percent of the state's general funds (general tax dollars) are appropriated to local governments for mandated services including public education. Although the Commonwealth relies on a biennial budget process, and the new budget is adopted in even years, the governor and General Assembly

revise revenue projections and appropriations every year. The session features senior members of the Senate Finance and House Appropriations Committees. The legislators will discuss and react to significant and timely budget issues.

## **Update: The Virginia Retirement System • Blue Ridge**

Gov. McDonnell proclaimed Virginia as the energy center of the East Coast. As both energy producers and consumers, Virginia's county officials have many reasons to care about state and federal energy policies. It is also important for county officials to be aware of the most effective strategies for not only improving energy efficiency and conservation, but to learn about the different economic opportunities for localities in the area of energy production.

**Keynote Speaker:** The Honorable Mark R. Warner, U.S. Senator

Mark R. Warner was elected to the U.S. Senate in November 2008. From 2002 to 2006, Warner served as governor of Virginia. When Gov. Warner's term ended, Virginia was nationally recognized as the country's "best managed state" and the "best state for business." As a member of the U.S. Senate's Banking Committee, Sen. Warner has been a key leader in bipartisan efforts to effectively update oversight of Wall Street and end taxpayer bailouts of failing financial firms. As a member of the Senate Budget Committee, he leads a bipartisan task force that studies ways to increase accountability and improve government performance to reduce federal

budget deficits. He also led a successful effort to compel the U.S. Veterans Administration to improve health care service and support female military veterans.

The Honorable William T. "Bill" Bolling,  
Lieutenant Governor, Commonwealth  
of Virginia

William T. "Bill" Bolling was first elected to serve as the 40th Lieutenant Governor of Virginia in 2005 and subsequently reelected in 2009. Prior to his election as lieutenant governor, Bill Bolling served for 10 years in the Senate of Virginia, where he was widely recognized for his work on health care and natural resources. Prior to his service in Virginia's Senate, he also served as chair of the Hanover County Board of Supervisors. During his first term as lieutenant governor, Bolling used his office as a bully pulpit to help focus public attention on a number of important health care issues like obesity, cervical cancer, asthma and cardiovascular fitness. During his second term as lieutenant governor, Bolling's focus has been to improve Virginia's economy and create jobs. Earlier this year, Gov. McDonnell appointed Bolling to serve in the governor's cabinet as Virginia's Chief Jobs Creation Officer.
