

Johnson, Mirmiran & Thompson (JMT) is a multi-disciplined design and construction services firm employing over 700 architects, engineers and construction management professionals throughout the mid-Atlantic region.

Established in 1971, JMT has a history of providing consulting services throughout the Eastern United States to a varied client base consisting of many public and private entities. We work with all levels of government including Federal, state, and local agencies, providing professional services from planning through construction. JMT is ranked #127 on the current Engineering News-Record list of top 500 national engineering firms.

JMT maintains 17 offices throughout the mid-Atlantic region including offices in Richmond, Herndon and Virginia Beach, Virginia. JMT can provide all of the A/E and CM services required for projects using in-house resources. Our A/E services include:

- Architecture
- Project Management
- Surveying
- Geotechnical Engineering
- Civil Engineering
- Traffic Engineering
- Transportation Planning and Design
- Water Resources Engineering
- Landscape Architecture
- Structural Engineering
- Mechanical Engineering
- Electrical Engineering
- Water/Wastewater Engineering
- Building Commissioning
- LEED/Sustainable Design Consulting
- Construction Management Construction Inspection
- Scheduling, Cost Estimating & Claims Analysis
- Geographic Information Systems and IT

Our business has evolved from its origin in transportation design and engineering into full design, engineering and construction management of water, wastewater and transportation related facilities.
