

McDonough Bolyard Peck, Inc. is a multi-disciplined consulting engineering firm organized to assist clients in managing the construction process from initial budget, to successful project closeout. MBP is recognized by the Engineering News Record as a national top-100 construction management firm. MBP provides cost-effective services in both construction management and the resolution of disputes. Construction management includes services such as cost estimating, value engineering, constructability review, CPM scheduling and inspection. Dispute resolution services include claims consulting, delay, impact and damages analysis, expert testimony and litigation support. The firm is also active in many forms of Alternative Disputes Resolution (ADR). The firm is dedicated to providing the highest quality of service, controlled growth, and the corporate depth and diversity to fully respond to the construction needs of an expanding client base.
