

Schneider Electric's Energy Solutions Group is a global specialist in energy management and energy infrastructure improvements. Schneider Electric is leading the industry in smart metering, water & waste water energy improvements, lighting control, sustainable building applications and renewable technologies. We provide solutions in our core competencies: building automation, power distribution, data centers, industrial automation and security automation. Our expertise in these areas provides customers optimal energy and security efficiencies with the associated savings in capital and operating expenses.

Schneider Electric is a leading provider of building management solutions and energy services that deliver measurable business results to customers through an active commitment to help individuals and organizations **"Make the most of their energy"**.

Schneider Electric is an approved Energy Services Company (ESCO) in Virginia for providing Energy Performance-Based Contracting.
