

GENERAL FIRM OVERVIEW

Engineering Consulting Services (ECS) is a geotechnical, environmental, construction materials and facilities engineering firm headquartered in Chantilly, Virginia. ECS' subsidiaries operate over 42 locations in the Midwest, Southeast, and Eastern states including 9 in Virginia. We employ nearly 900 people, including registered professional engineers and geologists, environmental scientists, certified technicians, field engineers, and staff support.

ECS' staff provides responsive engineering and monitoring services for the construction industry. Experienced personnel support design and construction phases and provide practical guidance on constructability issues. We are also fully committed to providing innovative engineering services.

Recently ranked as the nation's 116th largest engineering firm by Engineering News Record (ENR, April 2010), ECS has earned a reputation for being responsive and having the ability to solve problems on projects both large and small.

At ECS, we set the *Standard for Service*. The needs of our clients are our number one priority and we strive to provide innovative, value-added solutions to satisfy site constraints and challenges, project requirements, and federal, state and municipal regulatory requirements. That's why we rank as the #1 or #2 engineering firm in more than half of the markets that we serve.
