

Public Consulting Group (PCG) is a management consulting firm that primarily serves public sector education, health and human services, and other state and municipal government clients. Established in 1986 with headquarters in Boston, Massachusetts, PCG operates from 35 offices across the U.S. and in Montreal, Canada and Lodz, Poland. The firm has extensive experience in all 50 states, clients in six Canadian provinces, and a growing practice in the European Union. Because PCG has dedicated itself almost exclusively to the public sector for 25 years, the firm has developed a deep understanding of the legal and regulatory requirements and fiscal constraints that often dictate a public agency's ability to meet the needs of the populations it serves. We have helped numerous public sector organizations to maximize resources, make better management decisions using performance measurement techniques, improve business processes, improve federal and state compliance, and improve client outcomes. Many of PCG's more than 950 employees have extensive experience and subject matter knowledge in a range of government-related topics, from child welfare, Temporary Assistance for Needy Families (TANF), Welfare to Work (WtW), and Medicaid and Medicare policy to special education, literacy and learning, and school-based health services finance.
