

Visit Lunenburg County and Nottoway Falls

Aproximately five miles north of Victoria on Highway 49 is the Nottoway Falls on the Nottoway River in Lunenburg County, a man-made fishing reservoir/lake and water supply for the Town of Victoria. On the east side of the dam under the bridge are foot paths along the river that take you to natural falls. Large beautiful rock structures, natural water falls and nature await you.

Once you walk all the way to end, you have probably descended a few hundred feet below the man made fall. There are great picnic spots on the large rocks and good fishing on the west side above the falls. Public boat landing is located on the reservoir.
