

IDA Asset and Airport Manager
Industrial Development Authority (IDA) of Louisa County

The function of the IDA Asset Manager for the Industrial Development Authority of Louisa County (“IDA”) is to provide: secretarial, financial accounting, and public relations support to the IDA Board of Directors and as directed by the Board of Directors of the IDA, serve as a liaison with the Louisa County Economic Development Director.

A major function of the IDA Asset Manager is to manage the Louisa County Airport. The airport manager supervises the administration, operations, and maintenance of the Louisa County Airport and associated facilities in a manner which complies with State and Federal Regulations pertaining thereto and ensuring compliance under long-term agreements between the IDA (as Airport Sponsor) and the Federal Aviation Administration (FAA) and Department of Aviation (DOAV) as a condition of receiving federal and state funding. This professional opportunity will remain open until February 10, 2017.
