

Town of Leesburg JOB ANNOUNCEMENT

Job Title: Senior Utilities Engineer
Department: Utilities Department
Salary Range: \$63,976 - \$107,380
Deadline: Open until filled
Posted: May 1, 2017

NATURE OF WORK

This position involves senior level professional engineering work within the Utilities Department with a primary function of examining and providing engineering designs and review of public utility projects as well as private sector land development projects. Work involves reviewing engineering and construction plans for compliance with codes, regulations and Town standards and coordination with consultants and developers regarding plan approval. This position provides assistance to customers, various town departments, outside review agencies, architects, engineers, and the general public in the development and maintenance of water and sewer infrastructure.

REQUIRED QUALIFICATIONS

Education: Bachelor's Degree in Civil Engineering or a related field.

Experience: Four to six years in civil engineering work, or an equivalent combination of accepted education and experience that would provide the minimum knowledge, skills and abilities to carry out the position.

License/Certifications: Possession of a valid driver's license and a safe driving record.

PREFERRED QUALIFICATIONS

Education: Master's Degree in Civil Engineering or Civil Engineering Technology with an emphasis in Hydraulic Engineering.

License/Certifications: Professional Engineer (PE) license or Engineering in Training (EIT) Certificate

Bilingual in English/Spanish.

TO APPLY: Please go to www.leesburgva.gov/jobs for additional information and to apply online. Resumes may be submitted as supplemental only. EOE/ADA.
