

At Energy Systems Group (ESG), energy efficiency, modernized infrastructure, clean energy and smart financial planning are not only the outcomes of the solutions we provide, they serve as the foundation of our [strategic vision](#) and [sustainability goals](#).

Energy Systems Group, an award-winning energy services provider, specializes in developing sustainable energy solutions which allow building owners to maximize their energy efficiency and operational performance, while reducing their carbon footprint.

Energy Systems Group is accredited by the National Association of Energy Service Companies ([NAESCO](#)) as an energy services provider. ESG's comprehensive offering includes facility-wide audits, energy and facility project development, engineering and design services, implementation, financing, operations and maintenance services and measurement and verification of savings.

Through our core business of [performance contracting](#) and extensive network of utility partnerships, ESG provides [innovative solutions](#) for the modernization of buildings and energy infrastructures in the government, education, healthcare and commercial sectors. ESG also designs, builds and operates [waste-to-energy facilities](#) and [cogeneration plants](#) and offers a full range of [renewable energy](#) technology solutions such as solar, wind and geothermal.

Since 1994, the development of long-lasting and trusting relationships continues to be the foundation of our business. ESG has developed over \$2 Billion in facility improvements and energy efficiency projects for over 340 customers in the [education](#), [healthcare](#), [commercial](#), [local, state](#) and [federal government](#) sectors.
