

FLEET MANAGEMENT

The Enterprise Approach

Enterprise Fleet Management is a privately-held, full-service fleet management business for companies, government agencies and organizations operating medium-sized fleets of 20 or more vehicles, as well as those seeking an alternative to employee reimbursement programs. Enterprise Fleet Management is an affiliate of Enterprise Holdings Inc. and owned by the Taylor family of St. Louis, Mo.

Buying power

Enterprise Holdings and Enterprise Fleet Management together operate nearly 1.9 million vehicles throughout the world. With our deep manufacturer relationships, our customers get access to factory-direct vehicle ordering—including the best-available incentives—on fleet cars, trucks or vans. And with a national network of fleet resale experts (who sell more than 1 million vehicles annually), we also make the vehicle disposal process easy.

Know-How

Our expertise covers the full spectrum of a vehicle's lifecycle, including acquisition, registration, maintenance, use reporting, fuel card programs and remarketing, as well as fleet analysis and optimization. And with more than 470,000 fleet vehicles managed across North America, Enterprise also supplies most makes and models of cars, light- and medium-duty trucks and service vehicles.

Accessibility

Our fleet management team works out of more than 50 regional locations. We also provide a team of Automotive Service Excellence (ASE) certified technicians who communicate with fleet maintenance and repair shops across our network of 51,000 affiliates. This ensures your fleet vehicles are serviced properly—and get back on the road quickly. Visit our website, www.efleets.com, to check office locations, hours and phone numbers near you.

Strong Industry Connections

Our strong, long-term relationships within the fleet management industry reflect our excellent customer service and expertise. We partner with some of the top automotive fleet service providers, professional associations and automotive manufacturers.

Experience

Enterprise Fleet Management is part of the Enterprise family, which collectively operates the world's largest fleet of vehicles. Whether it's fleet management solutions, car and truck rental or car sharing, together we provide a total transportation solution backed by more than 60 years of experience.

Customization

The best fleet management companies understand your transportation needs on a personal and business level, and are able to adjust your fleet management services to your unique needs. Enterprise offers a local, dedicated fleet account manager who will provide day-to-day solutions to enhance fleet efficiency.
