

Engineering Project Manager (FT/PT) - #3685

Fluvanna County, Virginia, is seeking an Engineering Project Manager. Under the general supervision of the Director of Public Works, the Project Manager is responsible for planning, design, project management, and contract administration and inspection of public utility projects, as well as various other construction and engineering projects. Thorough knowledge of principles and practices of civil engineering related to the design and preparation of plans and specifications for a wide variety of utility and engineering projects is essential. A strong background in waterworks/sewer design, construction, and operation is preferred.

To succeed in this role, the candidate will be a graduate of an accredited college or university with major course work in civil engineering or related field required and Graduate study in the areas of water resources, hydraulics, sanitary engineering, or other related field preferred. Candidate will have a minimum of 5 years of experience in professional civil engineering work. Current licensure as a professional engineer in the Commonwealth of Virginia, or proven ability to obtain by reciprocity within 90 days of employment date, is strongly preferred. Any equivalent combination of experience and education that will allow the applicant to satisfactorily perform the duties of the job may be considered when filling the position.

COUNTY WILL CONSIDER FULL- OR PART-TIME OPTIONS DEPENDING UPON CANDIDATE AVAILABILITY.

Salary is negotiable depending upon education, licensure, certifications, and experience. Position open until filled. For the full job description, go to www.fluvannacounty.org/hr/jobs.

Submit a County application, resume, cover letter, and references by email to jobs@fluvannacounty.org. Applications are available at the county website, www.fluvannacounty.org/hr/jobs. EOE
