VACo 2019 LEGISLATIVE PRIORITIES

ECONOMIC DEVELOPMENT AND PLANNING

Broadband

VACo urges the Commonwealth and the Federal Government to assist communities in their efforts to deploy universal affordable access to the internet for all areas, particularly in underserved and rural areas. Additionally, VACo opposes mandates that limit or restrict local land use authority for the siting of telecommunications infrastructure or result in a negative fiscal impact to county budgets.

Proffers and Growth Management Tools

VACo supports changes to the conditional zoning law to allow greater flexibility in the application process for determining and addressing fiscal impacts.

VACo also supports legislation that grants localities additional tools to adequately meet increasing needs for public services driven by new development without burdening current residents with the cost of new growth through increased real estate taxes. Such additional tools may include broad impact fee authority for all counties, and adequate public facilities provisions.

EDUCATION

Education Funding

VACo urges the General Assembly to provide full state funding for public education, including the Standards of Quality (SOQ) as recommended by the Board of Education, where these recommendations coincide with prevailing local practice, targeted incentive programs, capital, and maintenance support, and teacher salaries.

Full state funding should be achieved without reduction to other parts of state public education budgets or to other core services. Changes to school security and high school graduation standards will require additional resources to implement and those costs must be adequately funded by the state. VACo supports additional state resources and additional funding options for localities for capital and school construction costs.

VACo supports the current practice whereby all year-end funds appropriated to the school divisions by the locality revert to the locality, retaining discretion with the governing body to evaluate and approve the reallocation of year-end fund balances.

ENVIRONMENT AND AGRICULTURE

Water Quality Improvement Funding

VACo supports effective partnerships across all levels of government as well as adequate financial and technical assistance from the federal and state governments to improve water quality. VACo supports improved water quality but opposes strategies that penalize local governments by withdrawing current forms of financial assistance or imposing monitoring, management, or similar requirements on localities without providing sufficient resources to accomplish those processes. VACo opposes the imposition of a state fee, tax or surcharge, on water, sewer, solid waste, or any service provided by a local government or authority.

Hydraulic Fracturing

VACo supports a stringent state regulatory program for hydraulic fracturing (or “fracking”) that addresses the potential to tap into natural gas reserves in ways that protect public and private groundwater supplies and preserve local government authority to regulate and/or ban this type of mining activity through their land use ordinances. VACo supports transparency efforts that require the disclosure of all chemicals and chemical mixes used in the fracking process prior to their use.

FINANCE

Local Finance

VACo supports the authority of county governments to levy and collect revenue from local business taxes.

Equal Taxing Authority

VACo supports granting counties equal taxing authority to that enjoyed by cities and towns to enact local excise taxes without referendum, such as the authority to adopt a local meals tax without referendum and to levy and collect a tobacco tax.

GENERAL GOVERNMENT

Local Authority

VACo supports the relaxation of the Dillon Rule and legislation maintaining and enhancing local authority and autonomy in matters including land use, revenue measures, procurement and other issues of local concern. VACo supports extending powers currently granted to some local governments to all local governments. VACo opposes legislation that erodes local authority.

Unfunded Mandates

VACo opposes unfunded mandates and shifting fiscal responsibility for existing programs by the Commonwealth from the state to localities. When funding for a mandated program is altered, the mandate should be suspended until full funding is restored. When legislation with a cost to localities is passed by the General Assembly, the cost should be borne by the Commonwealth, and the legislation should contain a sunset clause providing that the mandate is not binding on localities until funding by the Commonwealth is provided.

HEALTH AND HUMAN RESOURCES

Health and Human Resources Funding

VACo supports transparent state policies and funding to ensure the Commonwealth's at-risk families have access to high quality and appropriate services. The Commonwealth should provide full funding to localities and their state administrative entities for state-mandated human services and provide the necessary program flexibility to enable localities to provide comprehensive and case-tailored services.

TRANSPORTATION

Transportation Funding

VACo supports a study to examine the causes for declining growth in transportation revenues and to develop recommendations to grow revenue over time to meet increasing demands for new construction and maintenance for existing transportation infrastructure. Such a study must address the secondary road needs of counties throughout the Commonwealth, as such funding has been vastly reduced over the past 10 years.

VACo supports changes to simplify the Smart Scale process for allocating transportation funds to reduce time and costs to prepare and review applications.

VACo supports adequate funding levels to maintain existing transit capital state match rates which are projected to decline starting in 2021 due to the depletion of transportation bonds.

In 2018 the legislature enacted a dedicated funding solution for Metro that came largely through reallocation of existing revenues, at the expense of other significant transportation projects throughout Northern Virginia. To address this issue, VACo supports efforts to replace the regional funding that was redirected from the Northern Virginia Transportation Authority.

VACo Legislative Team

Dean Lynch, CAE

Executive Director
804.343.2511
dlynch@vaco.org

Katie Boyle

Director of Government Affairs
804.343.2514
kboyle@vaco.org

Jeremy Bennett

Director of Intergovernmental Affairs
