

Engineer III
Mega Projects Engineer

Are you tired of enduring long, congested commutes to work? Better your work/life balance while becoming an integral part of the most successful road-building program in the Commonwealth as a Mega Projects Engineer for the Prince William County Department of Transportation. Join the team who manages and builds the transportation infrastructure needs of our growing community.

We are seeking a talented and exemplary professional to join our dynamic Capital Improvement work group. We welcome you to bring your Engineering and Project Management expertise and fresh optimism to our team, while proudly serving the community.

The selected individual will need to have exceptional communication skills, be able to provide excellent customer service, and have solid technical and analytical engineering and project management skills. This position will develop/review procurement documents, engineering plans, right-of-way/utility plans and final construction plans for large-scale transportation construction projects (\$40 million and more). The successful candidate should be able to understand and implement different procurement methods for capital improvement projects and be able to manage and/or oversee the design and construction of the projects. We are looking for candidates to be enthusiastic, organized, creative, team-oriented, and have a positive can-do attitude. This position will perform under the direct supervision of the Mega Projects Branch Chief.

Prince William County is an Equal Opportunity Employer and supports workforce diversity.
