

The VACSB represents Virginia's 39 Community Services Boards (CSB) and one Behavioral Health Authority (BHA) in state and federal public policy matters, including state and federal funding considerations, impacting CSB/BHAs and/or the individuals they serve. The VACSB works to build consensus positions on policy, administrative and operational issues of CSB/BHAs and represents those positions to state agency partners, the Governor of Virginia and the Virginia General Assembly.

The VACSB provides training and development opportunities for CSB/BHA staff as well as our community stakeholder partners. Additionally, the VACSB engages in public education activities that help foster community connections with individuals with behavioral health and developmental disability needs and highlight the many abilities and contributions these individuals make to their communities.
