

Local Update of Census Addresses (LUCA) Operation

What is LUCA? The U.S. Census Bureau aims to count everyone living in America during the 2020 Census. To count everyone in your community accurately, we have to know where to count them. We work with tribal, state, and local governments who know where housing changes are taking place. LUCA is the only opportunity for your government to review the Census Bureau's address list for your area.
