

KLETT CONSULTING GROUP

CREATE THE FUTURE

Who Are We?

Klett Consulting Group, Inc. (KCG), a Service Disabled Veteran Owned Small Business, provides innovative system engineering and consulting services on broadband, municipality support, military transformation, joint experimentation, C4I, and interoperability Subject Matter Expertise (SME). We also offer system integration services facilitating ideas and concepts across technical and operational boundaries to create new capabilities.

Why Choose Us?

KCG brings to their clients the knowledge, experience and capabilities required to successfully manage and execute the many needs of an evolving business environment. Our long-standing network that encompasses a wide variety of industries provides our clients with expedited business processes including staffing, purchasing, and technical assistance.

Our Business Model

KCG utilizes a unique business model that provides our clients with the right products and services on demand through our experienced technical talent pool of subject matter experts and distributed network. We staff experts in each industry to ensure our clients are always on the cutting edge of business.
