INTRODUCTION:

Prince William County is currently seeking qualified candidates for our Fire and Rescue System Chief career opportunity. Prince William County's Fire and Rescue System is comprised of a combination of career and volunteer firefighters. This system works to provide high quality and efficient firefighting and emergency medical services.

As our next Fire and Rescue (F&R) System Chief, you will be afforded the exciting opportunity to lead over 700 civilian and uniformed staff and 600 volunteers. The F&R System Chief is responsible for developing goals, objectives, policies and procedures; supervising all operational and administrative matters; preparing and implementing an annual \$167 million dollar budget and participating in civic programs, disaster preparedness activities, and fire and injury prevention and safety campaigns.

The Prince William County Fire and Rescue System offers exceptional paid EMS training opportunities for both initial and continued education. As one of two accredited, fire-based paramedic programs in the Commonwealth of Virginia, we offer our staff the opportunity to take an intensive 49-week Paramedic program in-house. Our 13,000sqft. training facility opened in 2003 as the first indoor space in the United States dedicated to preparing candidates for the Candidate Physical Ability Test (CPAT).

Prince William County Government is an organization where elected leaders, staff, individuals, families and business work together to make Prince William County a community of choice. We do the right thing for the customer and the community every time. We are a learning organization, and we rely on our leadership at all levels to achieve our vision. We offer competitive wages, attractive benefits and Virginia State Retirement.
