## **Albemarle County Local Government**

### Climate Protection Program Manager

Albemarle County is actively seeking our next Climate Protection Program Manager to join our Facilities and Environmental Services team! The successful candidate will be responsible for the development, management, and execution of climate protection programs. This includes implementing initiatives within and outside of the organization. Work includes coordinating with partner organizations and community stakeholders; researching, applying and building community awareness of effective solutions; community outreach efforts, including public speaking; and preparation of informational and persuasive written materials.
