

The Cicala Law Firm PLLC

The Cicala Law Firm PLLC is a plaintiff's civil litigation firm with particular expertise in prosecuting commercial, consumer and health care fraud matters on behalf of individuals, businesses and governmental clients. It maintains a diverse, experienced and nimble team comprised of attorneys, analysts, health care and IT professionals. The firm is committed to taking advantage of cutting edge technology to identify claims and particularize damages, including through data mining. The firm has the ability to do this work in-house which permits substantial cost savings for its clients. In addition to its litigation and big data services, The Cicala Law Firm is available for health care cost containment efforts such as pharmacy benefit claims evaluation. It welcomes strategic partnerships with other firms where its competencies may complement those of the collaborating firm.
