

## The leader in digital government services and payments

PayIt is a SaaS provider of digital government services and payments. Through cloud-based technology, PayIt's platform simplifies doing business with government agencies of any size by consolidating hundreds of services and payments into one connected experience for citizens. Within a 90-day launch period, PayIt delivers a platform that allows citizens to handle all of their essential government tasks (taxes, driving documents, permits, licenses, fines, etc.).

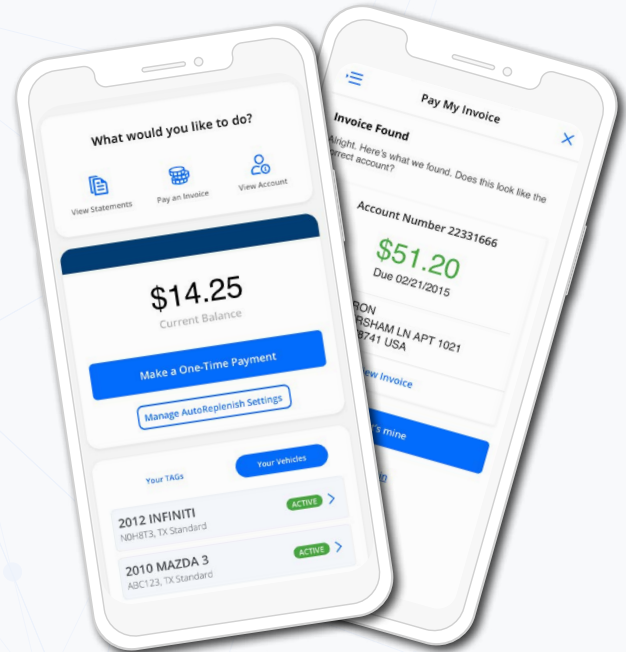

PayIt is able to serve any government office, regardless of population size. The PayIt platform is integrated into existing government systems of record, whether home-grown or provided by a third-party vendor. Available on web, mobile and Apple and Android apps, PayIt gives government agencies an always on, multi-channel approach to government service delivery.

This innovative approach to government service delivery has garnered significant recognition in both the public and private sectors:

- GovTech 100 (2017-2021)
- Fast Company Innovation in Design Award (2019)
- StateScoop 50 State IT Innovation of the Year (2019-2020)
- NASCIO State IT Recognition finalist (2020)
- LocalSmart Awards (2020)
