MUNIRevs
CAPTURE EVERY DOLLAR

ABOUT MUNIREVS

MUNIRevs is the first of its kind. It is a secure, cloud-based tax collection and licensing system, which automates counties' and business' workflow through our unique paperless system and services. Our innovative software helps jurisdictions more efficiently collect taxes and process licenses.

With over 18 years of experience as a Financial Director and CPA in the Colorado municipal finance arena, the founder of MUNIRevs Erin Neer, identified firsthand many shortcomings in the technology offerings for counties.

MUNIRevs evolves beyond the solutions that traditional government software provides in their desktop or online payment modules and harnesses the many benefits of secure, paperless, web-based technology to provide the most current and cutting edge solutions for your business revenue collection.

Currently, we process over $300 million in paperless revenues monthly. These revenues are automatically processed to our counties' bank accounts without any processing time by county staff.
