**INTERN/ENGINEERING & STORMWATER SERVICES**

Montgomery County Government Center

#5262020-1

Montgomery County Environmental Services and Montgomery County Public Schools are seeking up to three (3) engaged **unpaid/credit-only interns** to develop Watershed Educational Materials for the school system's sixth grade curriculum. This effort supports the county stormwater permit requirements. Materials will be developed in coordination with school system curriculum and state 2018 Science Standards of Learning. All majors welcome to apply, with particular interest for those in environmental sciences, education and engineering, and anticipated timeframe is June - August 2020.

Educational materials to be developed include content for online ESRI Story Maps and handouts in coordination with Environmental Services, GIS, and school science curriculum staff. Development of support materials for the school Stormwater Days that are held each fall and spring is a potential project goal that may continue into the fall semester. Candidates are encouraged to visit Montgomery County's home page "**Stormwater**" link for more information.

This volunteer internship is an outstanding opportunity to showcase ability to work in coordination with others and synthesize useful online learning content. The developed materials will be posted on the County stormwater website for public access, including potential employers.

The expectation is that this internship(s) will be an online collaboration and will not require any material support from the County in terms of a computer or office space through the project. An employee access card would also not be required at this time but if the internship extends into the fall semester then we may revise that expectation.

Applications must be submitted along with cover letter by **Friday, June 5, 2020**, to be considered. Online application available at <http://www.montgomerycountyva.gov/hr>. For more information, please call the County Job Line at (540) 394-2010. To request application assistance for disabilities, contact Human Resources at (540) 394-2007.
