

2021 VACo LEGISLATIVE PRIORITIES

VIRGINIA ASSOCIATION OF COUNTIES

VACo 2021 LEGISLATIVE PRIORITIES

ECONOMIC DEVELOPMENT AND PLANNING

Broadband

VACo urges the Commonwealth to provide adequate financial assistance to counties to build the necessary telecommunications infrastructure to deploy universal affordable access to the internet for all areas, particularly in underserved and rural areas. Additionally, VACo supports legislation that provides additional tools for counties to finance, build and operate open access networks in partnership with commercial internet service providers. VACo also supports efforts to streamline the permitting of broadband infrastructure in the VDOT right-of-way.

EDUCATION

Education Funding

VACo urges the General Assembly to provide full state funding for public education, including the Standards of Quality (SOQ) as recommended by the Board of Education, where these recommendations coincide with prevailing local practice, targeted incentive programs, capital, and maintenance support, and teacher salaries.

Full state funding should be achieved without reduction to other parts of state public education budgets or to other core services. Changes to school security and high school graduation standards will require additional resources to implement and those costs must be adequately funded by the state. VACo supports additional state resources and additional funding options for localities for capital and school construction costs, including expanding dedicated local sales and use tax authority first given to select counties by the General Assembly in 2019.

VACo urges the General Assembly to provide hold-harmless funding for Sales Tax distributions to local school divisions and Direct Aid payment amounts based on average daily membership until the main impacts of COVID-19 on both sources of funding cease. VACo also supports additional resources to provide distance learning and COVID-19 mitigation for in-person instruction.

ENVIRONMENT AND AGRICULTURE

Water Quality Improvement Funding

VACo supports effective partnerships across all levels of government as well as adequate financial and technical assistance from the federal and state governments to improve water quality. VACo supports improved water quality but opposes strategies that penalize local governments by withdrawing current forms of financial assistance or imposing monitoring, management, or similar requirements on localities without providing sufficient resources to accomplish those processes. VACo supports efforts to continue to restore and protect the Chesapeake Bay but opposes additional nutrient regulations on wastewater treatment facilities that are scientifically unsound, economically infeasible, or unnecessary for meeting the Commonwealth's goals. VACo opposes the imposition of a state fee, tax or surcharge, on water, sewer, solid waste, or any service provided by a local government or authority.

FINANCE

Local Finance

VACo supports preserving the authority of county governments to levy and collect revenue from local business taxes.

GENERAL GOVERNMENT

Local Authority

VACo supports relaxation of the Dillon Rule and legislation maintaining and enhancing local authority and autonomy in matters including land use, revenue measures, procurement and other issues of local concern. VACo supports extending powers currently granted to some local governments to all local governments. VACo opposes legislation that erodes local authority.

Unfunded Mandates

VACo opposes unfunded mandates and shifting fiscal responsibility for existing programs by the Commonwealth from the state to localities. When funding for a mandated program is altered, the mandate should be suspended until full funding is restored. When legislation with a cost to localities is passed by the General Assembly, the cost should be borne by the Commonwealth, and the legislation should contain a sunset clause providing that the mandate is not binding on localities until funding by the Commonwealth is provided. VACo opposes changes to state-mandated funding formulas that decrease state funding and require increased local funding.

HEALTH AND HUMAN RESOURCES

Health and Human Resources Funding

VACo supports transparent state policies and funding to ensure the Commonwealth's at-risk families have access to high quality and appropriate services. The Commonwealth should provide full funding to localities and their state administrative entities for state-mandated human services and provide the necessary program flexibility to enable localities to provide comprehensive and case-tailored services.

TRANSPORTATION

Transportation Funding

VACo supports continued study and action to address the causes for declining growth in transportation revenues and to develop recommendations to grow revenue over time to meet increasing demands for new construction and maintenance for existing transportation infrastructure. Such action must address the secondary road needs of counties throughout the Commonwealth, as such funding has been vastly reduced over the past 10 years.

VACo supports changes to simplify the Smart Scale process for allocating transportation funds to reduce time and costs to prepare and review applications.

VACo supports adequate funding levels to maintain existing transit capital state match rates which are projected to decline starting in 2021 due to the depletion of transportation bonds.

In 2018 the legislature enacted a dedicated funding solution for Metro that came largely through reallocation of existing revenues, at the expense of other significant transportation projects throughout Northern Virginia. Though significant progress was in the 2020 legislature, VACo supports continuing efforts to replace the regional funding that was redirected from the Northern Virginia Transportation Authority.

VACo Legislative Team

Dean Lynch, CAE

Executive Director
804.343.2511
