

The County of Warren is now accepting applications for the following position:

Technology Systems Technician

This is a full-time position within the Information Technology Department providing support to Warren County Government personnel. Duties include, but are not limited to: design, installation, configuration, and testing of Network Backup System; Network configuration and maintenance; familiarity with Microsoft Office 365; installation, configuration, and testing of miscellaneous software; and Network Application software updates and upgrades to Server application, software, and operating systems. Duties further include maintenance of user ID's and passwords for Active Directory/Azure, operating system (OS) imaging and software deployment, support application and OS software issues, hardware issues, trouble calls, equipment inventory, and training.

Applicant must be able to repair, provide maintenance for, and troubleshoot Network Servers, Network Switches and Routers along with other OEM devices within the County network. Must be willing to learn new technologies and work in a team environment. A minimum of 5 years' experience is required. A high school diploma or equivalent along with additional technical training or related college coursework is required. The successful candidate will have strong networking skills and cyber security experience.

Starting salary is \$55,381, depending on qualifications, with excellent benefits package. For employment application, including job description, contact Warren County Administrator's Office, 220 North Commerce Avenue, Suite 100, Front Royal, Virginia, 22630, (540) 636-4600, or application may be obtained online at <http://www.warrencountyva.net/employment-opportunities>. Position open until filled. Equal Opportunity Employer.
