

2022 VACo LEGISLATIVE PRIORITIES

VIRGINIA ASSOCIATION OF COUNTIES

VACo 2022 LEGISLATIVE PRIORITIES

ECONOMIC DEVELOPMENT AND PLANNING

Broadband

VACo urges the Commonwealth to provide adequate financial assistance to counties to build the necessary telecommunications infrastructure to deploy universal affordable access to the internet for all areas, particularly in underserved and rural areas. Additionally, VACo supports legislation that provides additional tools for counties to finance, build and operate open access networks in partnership with commercial internet service providers. VACo also supports efforts to streamline the permitting of broadband infrastructure in the VDOT right-of-way, at railroad crossings, and within utility easements.

EDUCATION

Education Funding

VACo urges the General Assembly to provide full state funding for public education, including the Standards of Quality (SOQ) as recommended by the Board of Education, where these recommendations coincide with prevailing local practice, targeted incentive programs, capital, and maintenance support, and teacher salaries. Full state funding should be achieved without reduction to other parts of state public education budgets or to other core services.

VACo supports additional state resources and additional statewide funding options for localities for capital and school construction costs, including expanding dedicated local sales and use tax authority first given to select counties by the General Assembly in 2019.

VACo supports voluntary incentives that encourage localities to increase teacher salaries to reflect the national average in compensation, as long as this is done without a required minimum local match. The state share of compensation for the base rate of salaries should reflect the actual average salary as determined by prevailing local practice.

ENERGY

Energy Policy

VACo supports energy policies and goals that reduce greenhouse gas emissions without compromising reliable and affordable access to electricity, and that address potential environmental impacts and life cycle costs for the manufacture, disposal, re-use, or recycle of material inputs. Such policies should allow for responsible coal and natural gas extraction, processing, and transport while protecting agricultural interests and natural resources.

ENVIRONMENT AND AGRICULTURE

Water Quality Funding

VACo supports effective partnerships across all levels of government as well as adequate financial and technical assistance from the federal and state governments to improve water quality. VACo supports improved water quality but opposes strategies that penalize local governments by withdrawing current forms of financial assistance or imposing monitoring, management, or similar requirements on localities without providing sufficient resources to accomplish those processes. VACo supports efforts to continue to restore and protect the Chesapeake Bay but opposes additional nutrient regulations on wastewater treatment facilities that are scientifically unsound, economically infeasible, or unnecessary for meeting the Commonwealth's goals. VACo opposes the imposition of a state fee, tax or surcharge, on water, sewer, solid waste, or any service provided by a local government or authority.

FINANCE

American Rescue Plan Act and Federal Infrastructure Funds

VACo supports the use of federal relief funds provided to the state through the American Rescue Plan Act, and federal infrastructure funding that may be provided to the state in the future, to make investments in county priorities, including broadband, wastewater and stormwater improvements, school capital needs, reimbursement for workers' compensation claims filed under the new presumption for COVID-19, and assistance to localities in meeting

election cybersecurity requirements. VACo encourages coordination with local governments in deployment of relief funds so that each federal dollar can be maximized for the benefit of the residents of the Commonwealth.

Local Finance

VACo supports preserving the authority of county governments to levy and collect revenue from local business taxes.

GENERAL GOVERNMENT

Local Authority

VACo supports relaxation of the Dillon Rule and legislation maintaining and enhancing local authority and autonomy in matters including land use, revenue measures, procurement and other issues of local concern. VACo supports extending powers currently granted to some local governments to all local governments. VACo opposes legislation that erodes local authority.

Unfunded Mandates

VACo opposes unfunded mandates and shifting fiscal responsibility for existing programs by the Commonwealth from the state to localities. When funding for a mandated program is altered, the mandate should be suspended until full funding is restored. When legislation with a cost to localities is passed by the General Assembly, the cost should be borne by the Commonwealth, and the legislation should contain a sunset clause providing that the mandate is not binding on localities until funding by the Commonwealth is provided.

HEALTH AND HUMAN RESOURCES

Health and Human Resources Funding

VACo supports transparent state policies and funding to ensure the Commonwealth's at-risk families have access to high quality and appropriate services. The Commonwealth should provide full funding to localities and their state administrative entities for state-mandated human services and provide the necessary program flexibility to enable localities to provide comprehensive and case-tailored services.

VACo supports resources necessary for behavioral health and mental health facilities to ensure the protection of residents' and staff health and safety, such as appropriate staff qualifications, training, compensation, and condition of the facilities.

TRANSPORTATION

Transportation Funding

VACo supports continued study and action to address the causes for declining growth in transportation revenues and to develop recommendations to grow revenue over time to meet increasing demands for new construction and maintenance for existing transportation infrastructure. Such action must address the secondary road needs of counties throughout the Commonwealth. VACo supports restoration of Revenue Sharing funds for the FY2023-FY2024 biennium.

VACo supports changes to simplify the Smart Scale process for allocating transportation funds to reduce time and costs to prepare and review applications. VACo supports adequate funding levels to maintain existing transit capital state match rates.

In 2018 the legislature enacted a dedicated funding solution for Metro that came largely through reallocation of existing revenues, at the expense of other significant transportation projects throughout Northern Virginia. Though significant progress was in the 2020 legislature, VACo supports continuing efforts to replace the regional funding that was redirected from the Northern Virginia Transportation Authority.

VACo supports efforts by the federal government to provide additional infrastructure funding to state and local governments, including passage of a five-year surface transportation reauthorization bill and encourages the state to coordinate with local governments on use of this funding.
