

2023 VACo LEGISLATIVE PRIORITIES

VACo 2023 LEGISLATIVE PRIORITIES

ECONOMIC DEVELOPMENT AND PLANNING

Broadband

VACo requests that the Commonwealth provide 100 percent funding to counties to build the necessary telecommunications infrastructure to deploy universal affordable access to the internet for all areas, particularly in underserved and rural areas, and streamline the application process for Virginia Telecommunication Initiative (VATI) grants. Additionally, VACo supports legislation that provides additional tools for counties to finance, build and operate open access networks in partnership with commercial internet service providers. VACo also supports efforts to streamline the permitting of broadband infrastructure in the VDOT right-of-way, at railroad crossings, and within utility easements.

Affordable and Workforce Housing

VACo supports increasing federal and state funding and appropriate incentives to assist localities in fostering affordable housing, as well as workforce housing for employees such as teachers and first responders.

EDUCATION

Education Funding

VACo urges the General Assembly to provide full state funding for public education, including the Standards of Quality (SOQ) as recommended by the Board of Education, where these recommendations coincide with prevailing local practice, targeted incentive programs, capital, and maintenance support, and teacher salaries. Full state funding should be achieved without reduction to other parts of state public education budgets or to other core services.

VACo supports additional state resources and additional statewide funding options for localities for capital and school construction costs, including expanding dedicated local sales and use tax authority first given to select counties by the General Assembly in 2019 as well as continuing to fund the School Construction Grant Program and School Construction Assistance Program.

VACo supports voluntary incentives that encourage localities to increase teacher salaries to reflect the national average in compensation, as long as this is done without a required minimum local match. The state share of compensation for the base rate of salaries should reflect the actual average salary as determined by prevailing local practice.

VACo supports additional state efforts and resources to educate, train, and credential students, especially in high-demand and critical shortage fields of employment.

ENERGY

Energy Policy

VACo supports energy policies and goals that reduce greenhouse gas emissions without compromising reliable and affordable access to electricity, and that address potential environmental impacts and life cycle costs for the manufacture, disposal, re-use, or recycle of material inputs. New sources of potential energy generation should include a range of technologies such as solar, wind, hydroelectric, hydrogen, and small modular nuclear reactors. Such policies should allow for responsible coal and natural gas extraction, processing, and transport while protecting agricultural interests and natural resources.

ENVIRONMENT AND AGRICULTURE

Water Quality Funding

VACo supports sufficient and sustained financial and technical assistance to counties to improve water quality and meet all federal and state standards to reduce pollution.

FINANCE

Local Finance

VACo supports preserving the authority of county governments to collect revenues necessary to provide local public services.

VACo appreciates the starting point that the discussions in the 2022 legislative session took regarding adjustments to sales taxes on food purchased for human consumption and essential personal hygiene products -- that any local revenue

losses would be replaced. VACo believes that the compromise forged in the budget negotiations in 2022 protects local K-12 revenue and respectfully requests that no further changes be made to this important local funding source.

GENERAL GOVERNMENT

Local Authority

VACo supports relaxation of the Dillon Rule and supports legislation maintaining and enhancing local authority and autonomy in matters including land use, revenue measures, procurement, and other issues of local concern. VACo supports extending powers currently granted to some local governments to all local governments. VACo opposes legislation that erodes local authority.

Unfunded Mandates

VACo opposes unfunded mandates and shifting fiscal responsibility for existing and new programs by the Commonwealth from the state to localities. When funding for a mandated program is altered, the mandate should be suspended until full funding is restored. When legislation with a cost to localities is passed by the General Assembly, the cost should be borne by the Commonwealth, and the legislation should contain a sunset clause providing that the mandate is not binding on localities until funding by the Commonwealth is provided.

HEALTH AND HUMAN RESOURCES

Health and Human Resources Funding

VACo supports transparent state policies and funding to ensure the Commonwealth's at-risk families have access to high quality and appropriate services. The Commonwealth should provide full funding to localities and their state administrative entities for state-mandated human services and provide the necessary program flexibility to enable localities to provide comprehensive and case-tailored services.

VACo supports resources necessary for behavioral health and mental health facilities to ensure the protection of residents' and staff health and safety, such as appropriate staff qualifications, training, compensation, and condition of the facilities.

Crisis Services and State Hospital Capacity to Accept Individuals Subject to Temporary Detention Orders

VACo supports efforts to address census pressures at state hospitals through near-term funding measures that will enable all state hospitals to receive admissions of individuals subject to temporary detention orders without delays. VACo supports competitive salaries and training for state hospital direct care staff. In addition, ongoing efforts to support community-based crisis services must continue.

TRANSPORTATION

Transportation Funding

VACo supports continued study and action to address the causes for declining growth in transportation revenues and to develop recommendations to grow revenue over time to meet increasing demands for new construction and maintenance for existing transportation infrastructure. Such action must address the secondary road needs of counties throughout the Commonwealth, including additional funding for the paving of unpaved roads.

VACo supports changes to simplify the Smart Scale process for allocating transportation funds to reduce time and costs to prepare and review applications.

VACo supports adequate funding levels to maintain existing transit capital state match rates.

VACo supports continuing efforts to replace the regional funding that was redirected from the Northern Virginia Transportation Authority.

VACo supports efforts to replace revenue lost due to eliminating the state sales tax on groceries, without redirecting funding for other transportation purposes.

While VACo supports the passage of the 2021 Infrastructure Investment and Jobs Act (IIJA), this funding should not replace the necessary funding the Commonwealth should provide localities regarding their transit and infrastructure needs. VACo supports flexible funding for transportation, transit and infrastructure projects across the Commonwealth.
