

# SteraMist by TOMI

## **STERAMIST**<sup>®</sup> DISINFECTION & DECONTAMINATION

Originally developed by DARPA, **SteraMist** has brought ionized Hydrogen Peroxide (iHP) disinfection technology to the mainstream with its hospital healthcare and broad-spectrum EPA registration. Using a solution that is comprised of 7.8% hydrogen peroxide as its sole active ingredient and naturally enhanced by a cold plasma arc, it has efficacy against bacteria, viruses, mold spores, and many other microorganisms. Choose from a range of full-room and surface disinfection products and service.
