

## **COUNTY ENGINEER**

The County of Augusta is accepting applications for the position of County Engineer within the Department of Community Development.

A partial listing of the duties and responsibilities of the position are as follows: planning, directing and designing engineering projects; administering contracts, maintaining files and records; preparing reports. Oversees the Subdivision process, Erosion & Sediment Control, Stormwater Construction General Permit, and MS4 programs and helps develop ordinances and policies to implement programs.

This position requires a Bachelor of Science Degree in Civil Engineering or related field and licensure as a Professional Engineer (PE) in the Commonwealth of Virginia. The County may consider promising Engineer in Training (EIT) applicants at a lower pay grade with an expectation they will pursue PE licensure within a negotiated timeframe.

The County offers an excellent fringe benefits package including retirement, group life and health insurance, and PTO leave program. Hiring range is \$74,983 - \$82,481 for PE applicants, and \$68,011 - \$74,812 for EIT applicants, depending upon qualifications.

A county application can be completed and submitted online from our website at [www.co.augusta.va.us](http://www.co.augusta.va.us) . County application with resume can be emailed to [hr@co.augusta.va.us](mailto:hr@co.augusta.va.us). Position opened until filled. Equal Opportunity Employer.
