

JOB POSTING

ENGINEERING MANAGER

Position type: Full-time Job Status: Exempt

Hiring Range: \$89,981 - \$127,546 DOQ

Responsibilities: The Engineering Department has an immediate opening for an Engineering Manager. The Engineering Department is a multi-disciplined group that works on a diversity of projects/programs with responsibilities that include standards and policy development, planning and design for capital projects, oversight of new construction projects, land acquisition, asset evaluation and rehabilitation, system capacity evaluation, data management, management of Geographical Information Systems, and the Cross Connection Control Program. Working for the Augusta Water Engineering Department provides opportunities to use your skills to identify and solve technical and policy related issues, resulting in better management of natural and financial resources.

Qualifications/Experience: Must possess a Bachelor's Degree in Civil, or Mechanical Engineering or related field. Must be a registered Professional Engineer in the Commonwealth of Virginia or has the ability to acquire a Virginia license through reciprocity within 6 months.

Required Skills: Must have knowledge of the design, construction, and operation of water, and wastewater, systems. Must have the ability to communicate, both verbally and written, and read in English to understand directions, procedures, and communicate to others. Must exhibit a positive attitude to effectively deal with the public, agency officials, and co-workers.
