

2024 Stormwater Local Assistance Fund Needs Assessment

Instructions

Welcome to the Stormwater Local Assistance Fund (SLAF) Needs Survey. The purpose of the Fund is to provide matching grants to local governments for the planning, design, and implementation of stormwater best management practices that address cost efficiency and commitments related to reducing water quality pollutant loads. Please be aware that the SLAF Grants shall be awarded solely for the acquisition of certified nonpoint nutrient credits and capital projects meeting all pre-requirements for implementation, including but not limited to: 1. New stormwater best management practices; 2. Stormwater best management practice retrofits; 3. Stream restorations; 4. Low impact development projects; 5. Buffer restoration; 6. Pond retrofits; and 7. Wetlands restoration.

For additional information and to obtain a copy of the Stormwater Local Assistance Fund Program Guidelines, please visit the Virginia Department of Environmental Quality - Clean Water Financing and Assistance Program website at: <https://www.deq.virginia.gov/our-programs/water/clean-water-financing-and-assistance>

The purpose of this survey is to identify needs for potential appropriations and awards from the Stormwater Local Assistance Fund (SLAF); therefore, it is important to NOT include costs for any projects that DEQ has previously approved for SLAF grant funding. In an effort to avoid duplicative responses from the same locality please coordinate with the party responsible for submission within your organization.

For this year we have included a PDF snapshot of the survey so that you may gather the appropriate project information prior to entering information into the survey platform.

Important: If you have more than five (5) projects to submit for the FY2025 time period, or have general questions about the survey, please coordinate your submission with Miranda Jaroneski at 804-839-6326 or cwfap@deq.virginia.gov.

Responses to this survey will be due on May 24, 2024.

2024 Stormwater Local Assistance Fund Needs Assessment

General and Programmatic-Level Information (5-Year Period)

The purpose of this section is to identify programmatic-level information on future SLAF funding needs over a five year time horizon, which generally aligns with the time horizons of typical local Capital Improvement Plans as well as MS4 Permit TMDL Action Plans.

1. Locality Name

2. Contact Person Name and Title

3. Contact Phone Number

4. Contact Email Address

2024 Stormwater Local Assistance Fund Needs Assessment

Forecast: Capital Project Program-Level SLAF Funding Needs by Fiscal Year

5. Please indicate in the table below the total amount of estimated eligible total project costs for projects you anticipate submitting applications to receive SLAF Grant Funds.

IMPORTANT: In a later section of this survey you will be asked to provide information on specific projects for FY2025. It is important that the amount you input in the 2025 line of this table equal the total sum of the estimated eligible total project cost lines from the project specific section of this survey.

FY2025 (\$)	<input type="text"/>
FY2026 (\$)	<input type="text"/>
FY2027 (\$)	<input type="text"/>
FY2028 (\$)	<input type="text"/>
FY2029 (\$)	<input type="text"/>

2024 Stormwater Local Assistance Fund Needs Assessment

Project-Level Information for Expected FY 2024 SLAF Applications

The purpose of this section is to identify *project specific* information supporting the FY 2025 SLAF funding needs as documented on the previous survey page. We anticipate that some level of planning and design information will be available to support the information entered in this section. However, inability to supply this information at this time does not preclude application and award for the project. If the requested information is not available at this time, please respond "N/A."

6. Project 1: FY 2025 Project Information

Project Name	<input type="text"/>
Latitude (Approximate)	<input type="text"/>
Longitude (Approximate)	<input type="text"/>

Please select the BMP Type from the following drop down menus.

7. Primary BMP Type:

8. Secondary BMP Type (if applicable):

9. Brief Project Description: (Please include information on watershed or neighborhood served and additional benefits of the project)

10. Is this BMP being used to meet TMDL Action Plan requirements?

11. Projected Nutrient Reductions - Please provide any estimates of total nutrient and sediment reductions that will result from the implementation of this project.

TN	<input type="text"/>
TP	<input type="text"/>
TSS	<input type="text"/>

12. Estimated Eligible Total Cost of Project (\$) - Please provide estimated eligible total capital costs, not to include future O & M costs.

13. Do you have additional projects to add?

- Yes
- No

14. Project 2: FY 2025 Project Information

Project Name

Latitude
(Approximate)

Longitude
(Approximate)

Please select the BMP Type from the following drop down menus.

15. Primary BMP Type:

16. Secondary BMP Type (if applicable):

17. Brief Project Description: (Please include information on watershed or neighborhood served and additional benefits of the project)

18. Is this BMP being used to meet TMDL Action Plan requirements?

19. Projected Nutrient Reductions - Please provide any estimates of total nutrient and sediment reductions that will result from the implementation of this project.
