Qualification Requirements

General knowledge of the methods, tools and equipment used in the repair of fire apparatus, EMS and emergency vehicles; general knowledge and skill in the use and operation of shop tools and machinery; ability to diagnose the more common defects in the drive trains, chassis, brakes, various fire engine pumps, aerial ladders and other components of emergency vehicle equipment; ability to detect by inspection any worn or broken parts; ability to adapt available tools and repair parts to specific repair problems; ability to interpret and work from sketches, diagrams and installation and repair charts; ability to follow oral and written instructions accurately; must have considerable knowledge in safety and environmental regulations.

***We are seeking candidates with extensive knowledge in fire apparatus for this position.**

Special Requirements

High school diploma or GED; five years of experience in maintenance, repair, and computerized diagnosis of fire apparatus faults at a journeyman technician rating, or an associate degree in automotive technology and two years of hands-on emergency vehicle experience with a minimum of two years in a supervisory position or an equivalent combination of education, training, and experience. The candidate must have the willingness to mentor the employees that they supervise.

Additional Information

Class B CDL preferred or EVOC required without a CDL within 12 months of employment. Possession of a valid class A Virginia State Inspector's License. Refrigerant recovery and recycling certification. EVT and ASE certifications preferred. May work beyond normal schedule; may be assigned routine scheduled coverage responsibilities under on-call policy.
